

July 2017

The Coos Coalition has recently received funding to support a Growing Great Kids coach. Since 2011 Coalition has made a commitment to supporting Growing Great Kids (GGK) as the foundational evidence based curriculum for home visitors. There are currently 19 home visitors from 3 different organizations trained in GGK (out of a total of 26 home visitors in Coos County). Although staff are trained in GGK, it is not always implemented with fidelity. The coach will be selected from current GGK trained staff and will be paid an additional 5 hours a week to meet with GGK staff to review curriculum and incorporate all aspects of curriculum, for each visit. The Coach will meet weekly for a group consultation with GGK staff at different locations in Coos and facilitate quarterly meetings among GGK staff to allow for opportunities to connect, review materials, support each other and share best practice.
