Safe Schools/Healthy Students
Concord School District**

July 2017

The Concord School District Safe Schools/Healthy Students Grant Initiative continues its commitment to provide high quality professional development opportunities for Concord's early childhood community. A three-session summer series will be offered on Wednesday evenings in July. Featured topics include; *Mindfulness; Early Childhood Trauma and Compassion Fatigue*. The workshop series will allow participants to revisit some previously presented material, with opportunities for a deeper understanding of the material and how it applies to the early childhood setting. All workshops are free to participants.
